

Independent Landscape Designer/Architect Position Details

Company Description

Seeking Experienced, Passionate Landscape Designers!

Patterson Yards is an Online Landscape Design Firm striving to bridge the gap for busy landscape companies that are looking to grow their businesses by optimizing their design/estimation processes. We are looking for motivated Landscape Designers & Architects who are interested in working in the green industry remotely with a team of professional landscape innovators.

About Patterson Yards

Founded in 2023 as a solution to every landscaper's business-scaling dilemma, Patterson Yards provides busy landscapers with professional landscape design and project estimation services. Patterson Design's services are made available online to businesses located in the United States and Canada through its experienced, passionate team of landscape professionals.

Patterson Yards is a start-up business that is experiencing steady growth and is in need of talented, experienced team members to grow alongside both our company and those we serve. Patterson Yards is a United States based & operated incorporation.

Job Description

We are seeking motivated landscape designers & architects filled with true passion for what they do. We are shaking up the landscape industry's archetype business model and want competent, excited team members to join our entrepreneurial collective.

The success of Patterson Yards truly rides on the backs of our design team - they are both the heart of our business and the people whom our clients landscaping businesses rely on! As a Full or Part Time Designer, you will work directly with our network of landscape businesses to create profitable, winning designs for their residential clients. You must have: a solid plant knowledge for the USDA planting zone you will be responsible for designing in, ample experience in residential landscape design, and excellent communication skills.

Primary Responsibilities

- Landscape Design: Create job-site/project basemap, get to know your assigned landscapers style and work to draft designs that reflect their clients existing site conditions and yard goals as shared through a series touch points, including zoom consultations.
- Project Management: Setup consultation calls with clients, manage revisions, educate the customer when necessary, meet strict deadlines for each step of the design/build process, and handle design alterations timely when change-orders come into play.
- Customer Service: Carefully attend to your landscapers (client) design needs, managing challenging situations with good judgment while engaging in thoughtful design leadership when needed
- Collaboration: Work in partnership with team leads, designers/design-assistants, and other Patterson Design staff with the opportunity to participate in strategic projects

Qualifications

- Available 20+ hours / week.
- 3+ years of experience working directly with residential homeowners and/or landscapers.
- Bachelor's degree in landscape architecture preferred but not necessarily required.
- Proficiency in Sketch-Up, Lumion, and Dynascape.
- The ability to create and complete your design assignments remotely.
- The ability to work independently and make sound design and customer service decisions.
- A relentless focus on the customer experience, as well as the design process.
- Tech savvy and comfortable with navigating Google products, video calls, and project management software.
- Excited to make an impact, drive results, and create happiness in a high growth startup environment.

Additional Information

This is a REMOTE 1099 independent contractor position. Fees are paid on a per-project basis, and are based on a flat rate per project.

Expected Annual Income to Range between \$48,000 & \$96,000 depending upon designers work-load capacity.

All your information will be kept confidential according to EEO guidelines.
